

# SLAM

## Civil Engineering

LAKELAND REGIONAL HEALTH  
PATIENT BED TOWER | Lakeland, FL

# Local Knowledge and Experience

SLAM's civil engineering team specializes in the design of utilities, grading, drainage, and layout of buildings, parking lots, and roads for a variety of public and private facilities. Our civil engineering specialists have worked with local, state and federal agencies throughout Florida and across the country. Our professionals have a unique knowledge of specific regulations and permitting relevant to Central Florida and are experienced in coordinating with utility providers.

OSCEOLA COUNTY SHERIFFS BUILDING | Kissimmee, FL

Collaborative | Sustainable | Permit Experienced | Constructability-Focused

LAKE COUNTY GOVERNMENT PLAZA | Tavares, FL

FLORIDA HARRELL MEDICAL EDUCATION BUILDING | Gainesville, FL

*"Working with your collective team has been one of the great experiences of HHCP's 25-year history of integrated team partnerships... HHCP welcomes the opportunity to work with you again. We share your passion for common sense solutions and budget-based design. I look forward to the next Project we do together!"*

Eric Shawn Houston, AIA  
Senior Project Manager,  
Helman Hurley Charvat Peacock, Inc.
